TITLE	Secondary School Profiles, 1985-1986. Rochester City School District. Includes New York State Comprehensive Assessment Report Data.
INSTITUTION	Rochester City School District, N.Y.
PUB DATE	Nov 86
NOTE	144p.; For a previous report, see ED 257 845.
PUB TYPE	Statistical Data (110) -- Reports - Research/Technical (143)
EDRS PRICE	MF01/PC06 Plus Postage.
DESCRIPTORS	*Academic Achievement; Achievement Tests; Enrollment Trends; Minimum Competency Testing; *Profiles; *School Demography; *School Districts; *School Statistics; Secondary Education; *Secondary Schools; Student Characteristics; Tables (Data)
IDENTIFIERS	*Rochester City School District NY

ABSTRACT

The 1985-86 profiles for the Rochester City School District's (New York) 11 secondary schools and four alternative program schools are tabulated in extensive charts. Information is provided on: (1) special instructional programs; (2) district achievement testing; (3) competency testing; (4) student attainment (percent of students enrolled in ninth grade Regents Level courses and passing ninth grade local courses, and graduation results); (5) Regents testing; (6) staff profiles; (7) average class size; and (8) demography. The latter describes student enrollment; number of students with limited English proficiency, handicaps, short) or long-term suspensions, or receiving free lunches; permits for open enrollment; the bilingual program; out-of-district, area, or zone attendance; urban-suburban transfer; adjustment transfer; and the Major Achievement Program; attendance; student mobility; and dropouts. This information is also summarized for the district as a whole. (MGD)

INTRODUCTION

The Rochester City School District's School Profiles was first published in 1982 reflecting selected data for the 78/79, and 80/81 school years. These profiles were designed for the following purposes:

1. Individual building assessment.
2. Public information.
3. Data for grants assessment and development.
4. School-based planning.

The content of the original profiles was developed in collaboration with building and Central Office staff to maximize its usefulness.

When the New York State Regents Action Plan required the publishing of a Comprehensive Assessment Report (CAR) on each school in the State, we found the content reflected our School Profile effort and therefore included the required CAR information in the School Profiles.

The basic format has also been expanded to include additional statistics useful at the local level.

The information presented in the Secondary School Profiles can be classified by three broad groupings - demography, performance, and attainment. Demographic data includes instructional programs, student composition, and attendance as well as trends of enrollment, mobility, and dropouts. Performance data is presented in terms of student achievement over a three-year period on standardized achievement tests in reading and mathematics and on New York State competency tests in math, reading and writing. Attainment data includes students enrolled in regents level courses, students retained, and graduation information.

The School Profiles reach a wide audience including the Board of Education, District administrators in Central Office and in the schools, teachers, parent and citizen advisory boards, and members of the press. The document is made available to the general public through dissemination to community groups and public libraries.

INFORMATION ON THE SCHOOL PROFILES

1. SPECIAL INSTRUCTIONAL PROGRAMS

Identifies additional programs in each school.

2. DEMOGRAPHICS

A. Student Enrollment

Grade:	6th thru 12th grade
Enrollment:	Number of students enrolled by grade (Based on October BEDS figures)
Number of Handicapped Students:	The number of students in special education classes in the particular school who are 50% or more in a special education classroom
% Minority:	The % of the 6-12 school enrollment which is non-white (Black, Oriental, Hispanic, American-Indian, Other)

B. Selected Student Statistics

% Poverty	Number of students receiving free lunch / October Building Enrollment
#Limited English Proficient	Students having no, little, or moderate English comprehension
#of Handicapped Referrals	Number of actually processed, regardless of disposition
#of Short Term Suspensions	Number suspension occurrences for up to 5 days
#of Long Term Suspensions	Number suspension occurrences over 5 days

C. Student Permits

Open Enrollment	Number of students attending under Open Enrollment Program
Bilingual	Number of students from other schools attending the Bilingual Program
ESOL	Represents only out-of-district
Family	The number of students entering from other attendance areas to attend school with siblings
Optional	Some schools have optional attendance zones. This is the number of students from another zone who are attending as a result of exercising that option
Suburban Urban	Suburban students attending city schools under the Urban-Suburban transfer program
Adjustment Transfers	The number of students who have been transferred from another school because of problems adjusting to former schools or programs
MAP	Number of students attending under Major Achievement Program
All Others	Includes - academic transfers, changed address, and special education

D. Attendance

Attendance rates are given for Jr. High and Sr. High as well as the building total.

E. Student Mobility

County	Monroe County only
Out-Of-County	From USA, foreign country, or NYS (not Monroe)
Institution	Includes reform school, mental institution, etc.
Age	Dropout
Others	Death, East Evening, Military, Destination Unknown
% Mobility	$\frac{\text{\#of Entrants + \# of Losses}}{\text{Total Oct. BEDS Enrollment}}$

F. Dropouts

The annual dropout rate is reported for schools having any students enrolled in any grade 9-12. The number of dropouts divided by the grade 9-12 enrollment gives the dropout rate.

3. DISTRICT ACHIEVEMENT TESTING

Standardized Achievement Tests

Standardized Achievement tests in reading and mathematics are administered to students in grades K-12 in the spring of each year. They reflect the achievement of the Rochester students compared with other students nationwide. Comparatively, the nationwide data would have 25% in each cell.

Grades 7-12, Reading and Math - % scoring in each quarter	Number scoring in each quarter divided by the number tested.

4. COMPETENCY TESTING

Preliminary Competency Tests

Preliminary Competency Tests in reading and writing are administered in grade 8. Their primary purpose is the identification of pupils who need special help in developing the basic skills of reading comprehension and writing. A State Reference Point has been established for each test, and pupils who score below the State Reference Point must be provided appropriate remedial instruction.

The Preliminary Competency Tests are also used to identify certain pupils who may have a handicapping condition, and they yield data that can be used in the planning, management, and evaluation of educational programs at both the State and local levels.

The reading test uses the Degrees of Reading Power (DRP) methodology. DRP tests are available from The College Board and are used by school districts throughout the nation and by several states.

The writing test is developed by the State Education Department with the assistance of classroom teachers. It is a direct measure of a pupil's ability to communicate in writing. The test consists of three writing tasks: a business letter, a report based on information given, and a persuasive discourse, or composition.

The Preliminary Competency Tests are replaced approximately every three years.

Regents Competency Tests

Pupils must demonstrate competence in reading, writing, and mathematics in order to receive a local high school diploma. The Regents Competency Tests provide one means for demonstrating the required level of proficiency. In general, the pupils who take the Regents Competency Tests are not planning to attend college; the vast majority of college-bound pupils satisfy the competency requirements by passing Regents examinations.

After each administration, school principals submit to the Education Department a report indicating the number of pupils who took each test and the number who passed. Pupils who fail an examination may take another at a later date. Schools are required to provide these pupils with appropriate remedial instruction.

Specific Data Item	Method of Computation
PEP (Preliminary Competency Test), Grade 8, Reading and Writing, % at or above SRP (Statewide Reference Point)	Number at or above SRP divided by number tested
RCT (Regents Competency Test) Grades 10-11, Math; Grade 11 Reading and Writing, % at or above SRP (Statewide Ref. Pt.)	Sum of number at or above SRP divided by sum of # tested in all grades concerned: Grades 10-11, Math; Grade 11, Reading and Writing

5. ATTAINMENT

Percent of Students Enrolled in 9th Grade Regents Level Courses.

Regents course enrollment is used by district staff to assess the effectiveness of improvements in achievement levels and strengthened course offerings at the junior high level.

Percent of Students Passing 9th Grade Local Courses.

Monitoring local (non-regents level) courses, allows district staff to make the same assessments as mentioned above for those students who do not qualify for a regents program.

Graduation Results

At the conclusion of each school year, high school principals submit high school graduation reports containing basic information on the pupils who were scheduled for graduation. The data are used by Department staff to assess the effectiveness of the school in helping pupils meet the competency testing requirements and qualify for Regents diplomas.

6. REGENTS TESTING

Regents examinations are achievement tests based on New York State Education Department-recommended courses of study used in grades 9-12. They provide schools with a basis for evaluating the quality of the instruction and learning that have taken place. They are used by school personnel to identify major learning goals, offering both teachers and pupils a guide to important understandings, skills, and concepts. The examinations also provide pupils, parents, counselors, administrators, college admissions officers, and employers with objective and easily understood achievement information for use in making decisions. Passing scores on the Regents examinations in English and mathematics satisfy all the competency testing requirements for high school diploma.

An individual pupil's Regents examination scores are used in many ways, but three uses are of special interest to most pupils. First, they are used by teachers for marking and grading purposes, often serving as the final examination. Second, they are used to determine eligibility for the Regents diploma, an honors diploma awarded to those who can meet the diploma requirements. Third, they are used by many college admissions officers to adjust for differences in local grading standards. Regents examination scores have proven to be an excellent predictor of success in college.

When a school encourages most pupils to take the Regents course of study, its passing rates may not be as high as those for a school where only the better pupils are encouraged to take Regents courses of study. Thus, admission policies to Regents courses of study must be considered when interpreting Regents examination results.

7. STAFF PROFILE

Administrative

Department Heads - Administrative time/Teaching time

Other - Program Administrator, Chairperson, Project Supervisor, Curriculum Specialist, Teacher on Administrative Assignment.

Support

Other - Attendance Personnel

8. Staff Ratios

Pupil-Teacher Ratio

$$\frac{\text{\# in Each Category}}{\text{October Enrollment}}$$

Pupil-Administrator Ratio

$$\frac{\text{Principal} + \text{Vice-Principal} + \text{Deans} + \text{Dpt. Hds.,} + \text{House Admin.} + \text{Cluster Cood.} + \text{S.E. Coord.}}{\text{October Enrollment}}$$

8. AVERAGE CLASS SIZE

Taken from BEDS data submitted annually to State.

ALTERNATIVE PROGRAMS

The Alternative Schools in the Rochester City School District are designed to provide an in-school program with a range of services for students 12-20 years of age.

Students attending alternative programs may be considered potential dropouts and/or high risk students. Characteristics which many of these students have in common are; low levels of performance resulting from basic skills deficiencies, chronic non-attendance, and behavioral, family, drug, legal and /or other juvenile-related problems.

Most of these students come from other District high schools, either by transferring or through the route of suspension. Others may be re-entering the public system from institutions and/or agencies working with juvenile problems.

The primary Alternative School is Center Junior-Senior High. The objectives of this school are to improve attitude, performance level, behavior, and to establish positive awareness on the part of students. Its overall goal is to prepare these students for graduation either from Center Senior High or from a comprehensive or from a magnet high school and to prepare them to enter the working world with adequate skills to become productive and successful.

The Special Placement Center is designed to provide a secure instructional/counseling setting for high risk students awaiting placement into other programs.

The School-age Parents/Young Mothers Program is a program of continuing education committed to working on the problem of teen pregnancy. Services provided, in addition to an academic program, include: individual and family counseling, weekly support groups, childbirth education classes, a licensed infant care center, and public health nurse services.

The following pages contain statistics on our Alternative Programs as displayed in the CAR report. Home tutoring programs are not included.

Since many of the tables of information displayed for other schools do not pertain to the Alternative Programs, they have been dropped.

Please note that the formula for calculating % of dropouts (number of dropouts divided by October 9-12 enrollment) for alternative programs over-estimates the percent, as the October enrollment is the lowest of all attendance periods for these programs and does not reflect the high mobility of later periods.

APPENDIX A

Excerpt from Section 100.2 of the Commissioner's Regulations

(1) The comprehensive assessment report for each school district and nonpublic school will include the following information for each school building and each school district, for the three school years immediately preceding the school year in which the report is issued:

(i) Student test data on all pupil evaluation program test, all Regents preliminary competency tests, all Regents competency test, all program evaluation tests, all Regents examinations, all occupational education proficiency examinations and all second language proficiency examinations as defined in this Part;

(ii) Student enrollment by grade;

(iii) Student dropout and attendance rates for public schools;

(iv) Number of students transferred into the alternative high school equivalency preparation program as set forth in section 100.7(e) of this Part;

(v) Data, as required by the commissioner, on diplomas and certificates awarded;

(vi) Any additional information prescribed by the commissioner on educational equity and other issues; and

(vii) Any additional information which the superintendent of the school district or the chief administrative officer of the nonpublic school believes will reflect the relative assessment of a school building or district.

(2) Each board of education through the superintendent and in cooperation with the professional staff, and for nonpublic schools, the chief administrative officer of the school, shall initiate measures designed to improve results related to their respective comprehensive assessment reports.

(3) On or before October 31 of each year, the commissioner shall identify the school buildings most in need of assistance based on the items set forth in paragraph (1) of this subdivision. A comprehensive school improvement plan shall be developed for each school building, and shall address the areas in which the school has been determined to be in need of assistance.

(ii) The comprehensive school improvement plan shall be implemented no later than the September following the close of the school year in which the plan was approved by the commissioner.
